

QL-5545 Automatic L-type sealer

QL-5545 Automatic L-type sealer

The QL-5545 can be added to an existing conveyor line or used by manually feeding the box/package onto the conveyor. Center fold POF/PVC film is used to automatically dispense, wrap and seal over your desired product. The operator manually sets the sealing length for the product to be wrapped. The sealer has a safety system which immediately stops the sealing mechanism in the event the operators hand or object interferes with the sealing operation. The sealing mechanism has a non stick coating with results in a smoke free machine. All excess plastic is wound onto a dispenser of. Once the product is sealed it then automatically runs through the thermal shrink tunnel where the shrink film is heat shrunk tightly around product.

Specification

Model	QL-5545
Max packing size(mm)	L450 x W350 x H100
Max sealing size(mm)	L550 x W450
Power(KW)	1.30
Capacity	0-16m/min
Voltage	220V 50/60Hz
Sealing temperature	150C depends on thickness of film and environment temperature
Thickness of film(mm)	0.015-0.10
Air pressure(Kg/cm ²)	5
Packing material	POF PVC
Machine weight	320
Machine size(L x W x H)mm	1700 x 900 x 1400
